

Remarks

Claims 1, 3-7, 9-12, 17, 19-21, 23, 24, 36-38, 41-58, 61, 63, 69, 71-73, 76, 81, 96 and 102-103 were pending in the application. No claims are canceled and no claims are added. Thus, upon entry of this amendment, claims 1, 3-7, 9-12, 17, 19-21, 23, 24, 36-38, 41-58, 61, 63, 69, 71-73, 76, 81, 96 and 102-103 remain pending.

Applicants thank Examiner Ha for the Notice of Allowance of November 9, 2009. This amendment and response is filed to correct errors discovered by Applicants. Claim 3 is amended to correct obvious typographical errors, and to include the alternative language directed to complementary SAPs. Support for this amendment can be found in original claims 28 and 29. No new matter is introduced by this amendment, and no amendments are made to distinguish prior art.

Applicants also confirm a telephone conversation with Examiner Ha on February 17, 2010. The Examiner indicated that it would not raise any new issues to introduce the term "or complementary SAPs" into claim 3 because that language was present in claims 28 and 29 as originally filed. References to a "pair of complementary SAPs" has been removed from the claims as had proposed in applicant's previously filed but unentered amendment after allowance.

If there are any questions regarding this amendment, the examiner is invited to telephone the undersigned. Otherwise, Applicants request that this amendment after allowance be entered in time for the amended claims to appear in the issued patent.

Respectfully submitted,
